

Liberals Sweep Into Power Capturing 28 Of 60 Seats

by BAYLA SCHECTER

Honest Sy And The Boys

Photo by Harry Bloomfield

Victorious Liberals rejoice after Friday's election left them sitting on the government bench for this season's Model Parliament. They took 28 of the 60 seats, 12 more than the second place Tories. Celebrating are: Reg Weiser, Antony Hering, Sy Steinman (President), Allen Nutik and Stan Cytrynbaum. Looking on at the rear is Big Brother.

Africa Week Will Begin Tonight With Exhibition Of National Painting

Dr. F. Cyril James will open an exhibition of African art and painting tonight at 7:30 pm in the Old Union Ballroom. The opening officially inaugurates Africa Week sponsored by the African Students Association.

English Faculty Obtains Copyright On Brecht's Play

The English Department has obtained the rights for the production of Bertholt Brecht's "The Caucasian Chalk Circle."

The play, already regarded as a modern classic, represents an example of Epic Theatre of which Brecht was the foremost exponent. It combines the dual objectives of touching its audience's emotions by means of its lyrical power and educating and enlightening them through its sardonic wit and reality.

"The Caucasian Chalk Circle" will be presented in Moyse Hall on the evenings of March 15, 16 and 17 at 8:30 pm. Tryout announcements will be made shortly.

Support Wanted

The next Senior Redmen basketball game will be played tomorrow night at the Currie Gym against the U of M Carabins. Game time is 8:30 pm.

The ceremony will be followed by a film festival at which movies from different parts of Africa will be shown.

On Tuesday, a talk on Music of Africa will be held in the Ballroom at 8 pm. The lecture will be given by Andre Rossinger, a design engineer and ethno-musicologist with a special interest in the cultural and musical history of Africa. He has spent the last five years doing research on this field.

During the week, panel discussions of professors and diplomats, a model United States of Africa Parliament, and a banquet-dance will also be held.

"This week," said Ifegwu Eke, President of the African Students Association, "the emphasis will be on democracy in Africa, Africa's relations with the United Nations, and the Model United States of Africa Parliament." He outlined the three aims of Africa Week:

- (1) "To share Africa's cultural heritage with fellow McGill students and the people of Canada".
- (2) "To present the true facts of Africa's situation and interpret Africa's expectations, hopes, and fears to the people of this continent".
- (3) "To popularize African ideas about Africa and cement the bonds

of friendship between Africans and the people of this continent".

The committee responsible for the exhibition consists of E. Omenukor, Paul Lukasa, Wusu Ansah Osei, and P. N. Okuma.

Faculty Attacked In Charity Drive

This week, the members of the faculty will be canvassed by the Combined Charities campaign.

Chairman Sue Carol Isaacson announced that professors willing to aid the student campus effort should proceed in the following manner: Blank envelopes will be available in several convenient campus locations; these should be filled out, with the address and phone number in the upper left-hand corner of the envelope, and the name and amount in the upper right-hand corner. The envelopes should be sealed, the receipt removed, and deposited in the ballot boxes provided for this purpose.

Students who have not yet been contacted by canvassers may give in the same manner. The institution of these ballot boxes should facilitate the efforts of the canvassers to reach "hard-to-get" students. Captains are reminded that all kits should be handed in by Wednesday. Vice-chairmen are hereby asked to act accordingly.

The Liberal Party swept to victory in the 1962 Model Parliament elections with a plurality of 47% of the vote. The number of ballots cast, 1867, was more than in any previous election.

Out of the available 60 seats in the house, the Liberals have secured 28, receiving 846 votes. The Progressive Conservative Party ran second with 480 votes, which gave them sixteen seats in the house. The New Democratic Party, in its second appearance on campus, gathered a relatively large number of votes, 289, and gained 10 seats.

The Congress Towards Canadian Maturity received 121 votes and four seats, while the League For Nuclear Disarmament came last, receiving the two remaining seats, with 69 votes.

Out of the 1867 votes, only 62 were declared invalid, which is less than last year's number. The Faculty of Law was the only faculty which did not have any void ballots.

CLEAN ELECTION

Steve Lipper, chairman of the Steering Committee, declared this election to be the cleanest that has been held so far. He stated that there were no stuffings of the ballot boxes or cheatings of any kind. "This is the most respectable and honest campaign yet," he said.

All party leaders said they were pleased both with the large turnout at the polls and the fairness and honesty of the voting. Claude Harari, leader of the Progressive Conservative Party, said, "This is the cleanest campaign I have ever been associated with."

Stan Cytrynbaum, a spokesman for the Liberal Party, stated that their party has received the largest proportional victory in five years, considering that there were then only two parties and there are now six.

Since the Liberals do not have a majority, Cytrynbaum stated, it is possible that a coalition will be formed with one of the other parties. He proposed CTCM as the most likely party, since they possess the necessary four seats in order to make the government a

majority one, and since their platform agrees quite closely with that of the Liberals.

MAIN ISSUES

Cytrynbaum pointed out that there are several main bills which will most likely be presented during the three sessions. These include economic and trade policy, national unity with regards to Bilingualism, and unemployment.

Harari said he was pleased with the large number of votes, and stated that the Progressive Conservative party had increased their total vote by 60%. He remarked that the PC's have gained six seats in the House.

David Lochhead, president of the New Democratic Party, noted that he was very pleased that his party got 50% more votes than last year. He said that this showed a growing trend towards the newly formed party.

"The reason that CTCM did not have more votes was that they did not have the large amount of publicity which the other parties enjoyed," stated Robert Prinsky, leader of Congress Toward Canadian Maturity. He proclaimed that his party's lack of publicity was due to its non-affiliation with a national party, and he declared CTCM's budget to be three dollars and forty eight cents.

GOVERNMENT FUNDS

Lipper stated that the supply of government funds to certain parties was disadvantageous in that the students might feel they are not getting a campus party. "But," he said, "the clubs give ideas to the national parties and the student body generally derives benefit from listening to the speeches of the parliamentarians during the campaigns of these parties."

"Three sessions give more time for discussion of various debates, and they provide a chance to carry out the true parliamentary procedure," remarked Lipper in reference to the three sittings to be held on February 1, 2, and 3. He further noted that if a bad bill is brought up during a session, there will still be time to introduce other and perhaps more important ones.

STUDENTS DISSATISFIED

Martin Aster, BCI 2, last year's Prime Minister of Model Parliament, summed up the election, "With the present state of uncertainty in Canada, this year's results certainly indicate the dissatisfaction of students with the Federal government's handling of vital issues."

Carnival Queen Sought

Nominations for this year's Carnival Queen commence today.

All nominations of girls in second or third year, signed by 25 students, and countersigned by the nominee, should be handed in to John at the Tuck Shop between 9 am and 5 pm until January 29.

All candidates will gather at RVC on January 30 between 2 and 5 pm for the first tea. The second and final tea will be on Monday, February 5.

Entertainment at the second tea will include a fashion show sponsored by the Miss Renfrew shop. Last year's Carnival Princesses, and professional models will display the latest fashions.

JANUARY 22, 1962

Good On You, Ellen

To a student at university, impatient with the seeming sloth and indifference of the outside world, the actions of government must often appear tainted to the point of moral degeneracy as these governments struggle between their consciences and their Gallup Poll ratings.

It is accordingly a moment of high excitement when one or another of our levels of government finally strikes out for a worthy cause.

The announcement Friday, by federal Citizenship and Immigration Minister Ellen Fairclough, strikes us as one of those memorable occasions. Starting February 1, the basis for admitting prospective new immigrants to Canada will be shifted from country (and colour) of origin to training and level of skills. Under the new regulations, the peoples of Asia, Africa and Latin America will be able to compete for the privilege of becoming Canadians on the same basis as white Europeans.

This will not, of course, mean that vast numbers of non-Caucasians will suddenly come flooding to the promised land. In the first place, most of the Afro-Asians, having just obtained the opportunity to govern their own countries, have no particular desire to transfer their loyalties to a new country, however attractive a homeland Canada might appear. And again, as former Citizenship Minister (now opposition critic) Jack Pickersgill has pointed out, the new regulations replace the old colour restrictions with new categories which will effectively curtail the flow of surplus, unskilled labour.

The important point remains that the new basis of discrimination is one which can be supported in good conscience by any Canadian. If a man desires sufficiently to become a Canadian, he can acquire the skills and training that will enable him to find employment here and thus qualify himself under the new rules for admission. But, under the old system, what could a man do about the colour of his skin or the country of his birth?

With another criticism levelled by Mr. Pickersgill in the House, we have no sympathy. The new rules, he charged, would create an administrative nightmare. Perhaps, but if the elected government is to be prevented from doing what is clearly proper and correct because of inconvenience which might accrue to the paid civil servants a gross distortion of democratic government has occurred.

When civil servants or other public servants, begin to believe that they, and not the MP's, have the responsibility to make the policy decisions then the proper operations of government break down.

If the long delay in publishing these new regulations was caused by objections from within the bureaucracy then we congratulate the government on finally asserting its rights.

The new regulations are excellent as far as they go but they should not be regarded as the final word. Among other changes in this field which should be put into effect is the end of the discriminatory regulation that forbids overseas students taking summer jobs to help cover their expenses while studying at Canadian Universities.

We congratulate the government for its bold action in the immigration field and we hope this will encourage other steps in those areas of particular interest to University students.

Student Outlook

Our Stake In The U.N.

The fate of the United Nations, the sole guardian of international peace and security, hangs in the balance as we enter 1962. When the General Assembly recessed late last December, it left three crises behind which now overshadow its future, poised for the kill.

First, there is much criticism of U.N. intervention in the Congo. Second, India's defiance of the charter by launching aggressive action against Goa, an action which went undecreed and unpunished by the entire Afro-Asian bloc and which was arrogantly defended by India delegate, C.S. Jha. He announced that India would have her way, "Charter or no Charter, Council or no Council." This shook the U.N. to its core.

Third, the U.N., heavily subsidized by the United States, has been unable to collect its assessments from some countries. Those nations who disagree with the U.N. intervention in the Middle East and in the Congo have refused to pay their assessments for these wars. As a result, the United Nations, for some time, has been on the verge of bankruptcy. It has recently resorted to the undignified expedient of launching a \$200 million bond issue, \$100 million of which has been picked up by the U.S.

Vague Voters

Eight hundred million people have been freed from colonialism since the end of the World War II. As a consequence, the U.N. has accepted a flock of new nations, each with one vote, many of which do not even vaguely understand the meaning of democracy or the intricacies of international politics.

A numerically strong, mercurial and potentially perfidious Afro-Asian bloc has developed in the U.N. General Assembly in the past year. Not one nation in this bloc voted to censure India in the Goa affair. They regarded the matter as a victory of the colored Indians over the 'colonial' Portuguese in Goa. The General Assembly appears to be dividing along color lines, a potentially explosive situation.

Importance

Britain (which failed to support Congo intervention) and some ultra-rightists in the United States, seriously question the U.N.'s merits. The world organization has many faults, but the salient factor is that it is still the sole agency of world-wide, international co-operation and the sole international forum. This merit, in a world in which international co-operation and understanding on any level is vitally important, more than justifies the U.N.'s existence.

If we are to regard ourselves as responsible citizens of the world, we must realize that we shall have to assume the world's challenges and problems in the near future. For this reason, the progress and fate of the United Nations is our vital concern.

Adlai Stevenson, well aware of the dangers threatening the U.N.'s existence, left this thought with the delegates before the Christmas recess: "I hope all members will use the present recess to think hard about ways

and means to improve this crucial capacity of the United Nations to act in the interests of both peace and justice—before it is too late."

The General Assembly reconvened last week. Whether or not

by

CORBET LOCKE

Mr. Locke is the Associate Editor of The Gauntlet, the student newspaper at the University of Alberta in Calgary. This article comes from Canadian University Press.

It will reconvene in January, 1963 is a vital question, and upon the answer to this question depend many of the hopes and aspirations of human civilization.

The choice between international anarchy and international peace, justice and security may well be made this year.

As university students, we can play a part in this decision by pointing out to the powers-that-be the past achievements, crucial

need for, and future merit of the United Nations. This body's potential as a stimulus for the co-ordination of international projects in the field of education is considerable. In this way could world-wide understanding be nurtured, and intolerance, bellicose nationalism and ignorance be effectively challenged. Similar agencies and commissions such as UNICEF, UNESCO, the World Health Organization, the Drug Supervisory Body, the Universal Postal Union, the International Bank, alone justify the existence of the United Nations.

Students' Stake

University students, we who have such a great stake in the future, have a pressing responsibility. We have the ability to provide some of the bonds to tie the world's peoples together and prevent the collapse of the United Nations. Let us not avert our responsibility.

The future is ours, and as students in this crucial age must not only prepare for it, we must also help to preserve it.

Bindra Explains Advantages Offered By Teaching Machines

by JANIE GROSS

"With the aid of teaching machines, it is possible to complete a course in only 10 - 15 lectures" said Dr. D. Bindra in a lecture last Friday to the Psychology Club.

The basic principle involved in this "so called" machine movement is self-instruction. Therefore, the machine plays a comparatively minor role. Questions are arranged in a logical, progressive manner and the same information may be used in numerous contexts. The machine is similar to a private tutor in that it encourages a complete understanding of each point before progressing and it hints and prompts the correct answers.

ADVANTAGES

The programme is scientifically set so that 90-95% of the participants will answer the questions correctly on their first attempt. The information is analytically presented in small, clear doses. Questions and answers follow immediately enabling the student to absorb the new knowledge "with complete elimination of memorization".

Over the period of a year as much work is covered through the "programming method" as through the "traditional method of lectures". However, the student works

at his own pace and "the business of being left behind is eliminated" said Dr. Bindra. "In the classroom, after losing one important point, the rest of the lecture is generally useless."

This new system may be presented through two media: machines and booklets. Dr. Bindra maintains that, "Although there is no difference between the proficiency of the two at the High School and University level, there are certain advantages to the machine." On the machine, there is no temptation to "cheat" at the question and a more precise record of each student may be kept. Children find the machine intriguing and at this level hardware may be helpful, although it is never essential.

COMPARISON OF METHODS

"It is generally agreed that the present system of education is no good, although traditional" stated Dr. Bindra. In the new method, the task of the student is to think out the answers, thus producing active participation. In a lecture, a student has a passive attitude. During a 50 minute lecture, he has learned only how to take notes. In a small conference, active discussions are theoretically possible but are discouraged as the students are not well enough informed about the subject. Regardless of how the student is equipped, the majority of the time must neces-

sarily be allotted to teaching facts which could have been covered by the programme.

Answers to the questions are given, thus providing an immediate feedback and consequently a motivation to continue. Texts are not so designed. In cases where exercises follow a chapter, such a great amount of work has been covered and the exercises appear so involved that they tend to discourage the student.

MOTIVATION

According to university standards, "a student either has it or not and should be self-motivated by the time he has become college material". However, the interest of a student in his subject does have to be aroused. This may be achieved in various ways by the instructor. Professors may serve as a model of competency but this is dangerous. If competency is to be achieved, a genuine interest rather than a desire to imitate the Professor must be gained. There also may arise on the part of the student a desire to do well only to be loyal to the teacher. "This is abominable" exclaimed Dr. Bindra.

Dr. Bindra suggest that a mechanical program be adopted to teach the basis of first, second and third year courses. Thus the calibre of teachers would be raised. Lectures, however, are definitely necessary for discussion and to fill in new information.

Manitoban Dispute Unofficially Over

WINNIPEG (CUP) — A dispute between the University of Manitoba Students' Union and United College is all but officially over.

Pending the arrival of a letter from the Senior Stick of United College, Joe Stern, the rift has been healed. Last term, United, which is located in downtown Winnipeg, threatened to withdraw from UMSU because of alleged lack of communication between the two campuses.

William Neville, president of UHSU, expressed satisfaction at the decision of United to remain in the union.

ACTIVITY DEARTH

One point of contention between the two bodies was the dearth of university activities held at the College. Although the solution to this problem has not been found, Neville suggested that a part of any particular program might take place at United. For example, a section of the Winter Carnival may be held at United, or one lecture of the Commonwealth Conference could take place at the downtown site. Stern was not available for comment on these suggestions.

NO FUNDS

Another area of disagreement between UMSU and the College was over the proportion of UMSU funds allocated to the College. However, the decision to remain in UMSU does not depend on the receipt of additional funds from UMSU. According to Mr. Neville, United could raise additional mo-

ney by increasing the charge to students over the present \$18.50 paid to UMSU.

It was also learned that a \$3 increase in student fees, recently passed by UMSU to support football, need not be paid by United if it remains affiliated with UMSU.

Recent Marathon Fad "Heartily" followed; Douglas Hall Busy

Another 'thon has begun!

Eleven characters lining in Douglas Hall have started a hundred-hour "Heartathon". The new fad began at 4 pm Friday afternoon and is planned to run through Tuesday night.

The Heartathon was instigated by McGill's recent 'Monoplathon' and the participants intend to better the Monoplathon's record.

All the players are from second floor H house of Douglas Hall and include: Dom William, who has played 32½ hours straight; Ken Doerkson, who has the lowest score so far; Eric Tischler, Garth McDonald, Bill Hanna, Chuck Yegar, Ken Yazar, Fred Harris, Joe Medjuck, Steve Quirk, and Mike Paulson.

Blues Defeat Pucksters 7-3

by LEW MOSS
Sports Editor

Last Friday's Intercollegiate Hockey League match between the powerful Toronto Blues and a determined McGill Redmen contingent on the former's home ice ended with a physically worn McGill team on the short end of a 7-3 score. This four goal margin, however, is not representative of the brand of hockey displayed or the actual closeness of the encounter.

According to Coach Kelly Burnett, the match was anybody's game through the first forty-five minutes of play. McGill's Larry Jones figured in all three Redmen score, assisting on goals scored by Thibodeau at the 49 second mark of the first period and Gilfillan at 5:35 of the second period, and closing out the Redmen's scoring with a goal of his own at 17:50 of the same period, making the score 3-3 at the end of two periods in a very even, closely contested game.

LACK OF CONDITIONING; ILLNESS SHOW

However, the speed of the match finally began to have its effect on the McGill team. Almost two weeks inactivity in league play, because of the previous Saturday's "boo-boo", left the team in a somewhat below par condition physically. This factor, along with a rather severe case of the flu which greatly handicapped veteran defenseman Mike Richards, began to tell on the team's over-all play.

The final crushing blow came when the Redmen's stalwart defenseman Leo Koryk suffered a torn muscle at the back of his shoulder blade at the end of the second period. Although originally feared

to be a possible shoulder separation, Coach Burnett now feels that Leo should be back in action in 3 or 4 days.

When Toronto scored at the 3:01 mark of the third period with the Blues a man short, a general let-down of the Redmen's effort for the remainder of the game resulted as exhibited by the four unanswered Toronto goals in the final stanza. Toronto's Coach Kennedy commented at the end of the game that Friday's encounter was the best played game he's seen on Toronto ice in the last few years.

The hockey team plays two exhibition games this week; Tuesday, the 23rd, against Loyola and Saturday, Jan. 27, against St. Lawrence at Postdam, New York.

SUMMARY

Blues 7, Redmen 3

FIRST PERIOD	
1-McGILL, Thibodeau (Gilfillan, Jones)	0:49
2-TORONTO, Murchie (Elik, Olah)	11:03
SECOND PERIOD	
3-McGILL, Gilfillan (Jones)	5:35
4-TORONTO, Monteith (Hicken, Elik)	7:38
5-TORONTO, Kennedy (Hicken, Sinclair)	13:15
6-McGILL, Jones (O'Reilly)	17:50
THIRD PERIOD	
7-TORONTO, Spoyers (Cherepacha)	3:01
8-TORONTO, Cherepacha (Olah, Elik)	9:45
9-TORONTO, Chambers (Osborne, Weller)	13:31
10-TORONTO, Hicken (Kennedy, Cherepacha)	15:15

BRAVES PLAY TONIGHT

Braves Hockey Squad plays Sir George tonight at 7:30 pm at Lower Canada College rink in the first game of the newly formed C.I.H.L. League.

Cagers Defeat Marauders 98-96; Lose To Blues By 99-82 Count

by STEVE GRUBER

While splitting two week-end games, the McGill Redmen Basketball squad finally managed to bring home a victory over McMaster Marauders, but failed to defeat the University of Toronto on the Blues home court.

On Friday night, at Hart House, the Blues used their small court and overpowering height to defeat McGill 99-82. The game opened at a fast clip, with Toronto taking a 12-8 lead and never looking back. By the seven minute mark, Varsity had amassed an 18-9 lead. At this point, the McGill offense began to click, and they picked up to within two points. However, the Redmen's spurting offense again failed and the Blues swept into a 27-18 lead. The rest of the half saw little exciting play, the Blues keeping the lead 50-37.

A regenerated offense brought the Redmen to within five points, but Varsity's height advantage began to tell on the faltering Redmen, and using their fast break, they moved into a 62-47 lead.

With ten minutes left, the Varsity held a 15 point lead, and with time running out, the Blues completely bottled up the Redmen's

offense. The game finished routinely, and U of T cake-walked off with a 99-82 victory.

Outstanding in defeat for McGill were Bob Berkman, high man of the night with 33 points, playmaker Doyle Perkins with 19 points, and Ben Shore with 18 points.

IMPROVEMENT AGAINST McMASTER

Saturday night saw a complete reversal of form in one of the most exciting ball games ever witnessed between McMaster and McGill. Coming through in fine style, the Redmen fought back from a nine point deficit with seven minutes left, to defeat the Marauders 98-96 in overtime on Ben Shore's two foul shots.

The Redmen broke into a fast 33-21 lead against the much taller McMaster squad on the fine efforts of Bob Berkman and Doyle Perkins, however Barry Ager's outstanding hook shot brought the Marauders to within five points of McGill by the 16 minute mark of the first half. The half-time score read at 47 points apiece.

Opening the second half, McGill's offense seemed to lose its touch, and the Marauders swept into a 13 point lead. But the Red-

men managed to overcome the Marauder's overwhelming height, and fought back to tie the score at 85 all with three minutes to play. At this point, McGill received a blow, when Bob Berkman, easily the outstanding player of the evening, fouled out. Bob received a standing ovation for his terrific 44 point effort.

Under the leadership of Doyle Perkins, the Redmen kept pace with McMaster, and at the end of regulation time the score remained tied at 88-88.

In a spine-tingling overtime period, Perkins led the McGill squad to a 96-92 lead with two minutes left. With the strong work of Pete Math, who replaced Berkman, the Redmen managed to hold the Marauders at 96 all. This set the stage for Ben Shore's last-second foul shot, and the game ended with the entire McGill bunch emptying onto the gym floor to congratulate the Redmen squad.

Following Berkman in the scoring parade were Barry Ager with 39 points, Doyle Perkins with 29, and Bill Kostyk, a hustling McMaster guard, clicked for 19.

This Tuesday night, at 8:30, the Redmen meet the University of Montreal Carabins at the Currie Gym.

Intercollegiate Hockey League Standings

	P	W	L	T	F	A	Pts
Toronto	4	4	0	0	25	11	8
McGill	4	2	2	0	14	18	4
Laval	6	2	4	0	23	27	4

Friday's Games

Laval 5, Montreal 3
Toronto 7, McGill 3

BADMINTON

Try-outs for the selection of the McGill Intercollegiate Badminton team will be held on Tuesday and Wednesday, January 23 - 25.

The Intramural W.A.A. Badminton tournament will be held on January 16-23. There will be no recreation play on the above mentioned dates.

Three courts will be available for Recreational Play — Thursday Jan. 25.

EXECUTIVE APPLICATION PROGRAMME

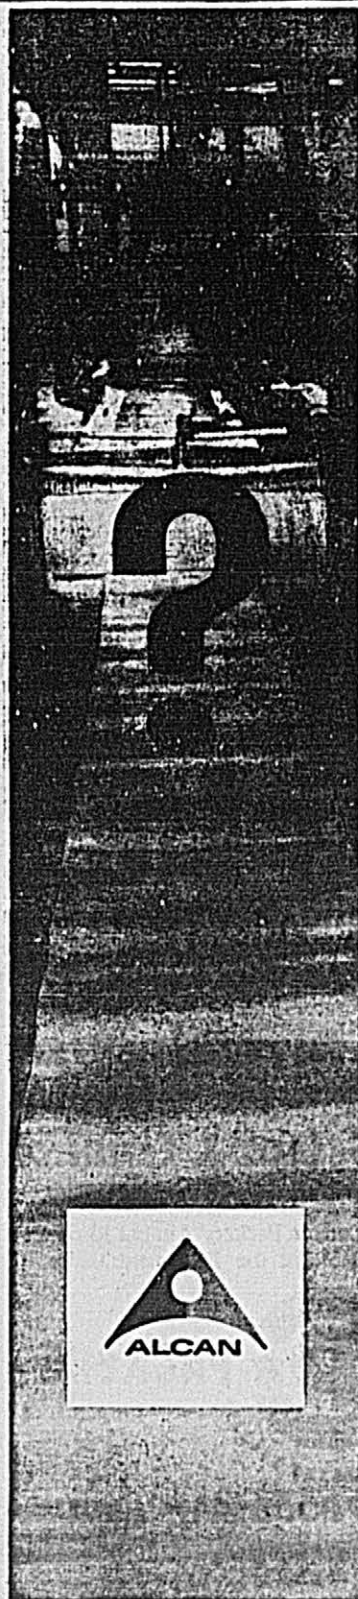

Applications are called for 14 McGill delegates to the UNIVERSITY MODEL UNITED NATIONS to be held in Montreal, February 7 to 10, 1962.

Application forms obtainable from the S.E.C. Office must be completed and returned before 4 pm on WEDNESDAY, JANUARY 24, 1962.

WILFRED T. HASTINGS,
Secretary-Treasurer,
Students' Society

MOVIE ON OLYMPICS

A 1½ hour movie about Gymnastics at the 1960 Olympic Games in Rome will be shown tonight at 6:30 pm at the Sir Arthur Currie Gymnasium. All interested are invited.

What's doing in Aluminum FABRICATION?

Lots—because fabrication is an important part of Alcan's business. About 15% of our ingot production is fabricated in Canada into finished products. (The other 85% makes a vital contribution towards Canada's export trade.) In our own plants, we make semi-finished and some finished products:

At Arvida, P.Q.: Rod for wire production and other applications; aluminum paint pigment.

At Shawinigan, P.Q.: Wire, electrical cable, cable accessories.

At Kingston, Ont.: Sheet, plate, foil, extrusions and tubing.

At Etobicoke, Ont.: Die castings, permanent mold castings and sand castings.

At Vancouver, B.C.: Extrusions, rod and wire, electrical cable.

Fabrication at Alcan is a challenging business, not only for graduates in physical metallurgy and mechanical engineering, but also for those in nearly all other engineering and many science disciplines. A typical metallurgical problem might involve development work in the fabrication and heat treatment of Al-Mg alloys used in sheet plate and extrusions for road and rail transport. Whatever your specialty, you are likely to find challenging assignments at Alcan. If you're interested, please write to

ALUMINUM COMPANY OF CANADA, LIMITED

STAFF PERSONNEL DIVISION — BOX 6090, MONTREAL 3, P.Q.
or talk to our representative when he visits your campus
